

SQUAT WEDGES

SPECIFICATION SHEET

PRODUCT OVERVIEW:

Power Lift Squat Wedges are designed to improve squat depth and range of motion, while protecting and strengthening the knees. Wedges are available in 10, 15, and 20 degree angles and feature an Xtrax surface for improved grip.

KEY FEATURES:

- Available in 10, 15 and 20 degree angles
- 14 gauge steel used for main formed part
- 7 gauge steel side plates
- Frame is reinforced with 1.5" x 0.75" x 0.075" rectangular steel tubing
- Reinforcement / spacer rectangular tube allows for compact stacking with no binding upon removal
- 1/2" diameter round steel handles provides multiple carry options
- Assist with movement, stacking, storing of squat wedges
- Extended foot plates provide increased stability
- XTrax
- Die Cut XTrax is used on the working surface and on the bases of the squat wedges
- XTrax is non-marking and provides a long-lasting grip
- XTrax is attached using a pressure sensitive adhesive
- Load tested to 1,000 lbs.
- Finished in standard wrinkle coat black finish
